COMMENCING EACH DAY AT 2 O'CLOCK, P. M.

PREFACE

I am commissioned by C. A. Baldwin, Esq., of Colorado Springs, Colorado, to sell at public auction, without reserve, his magnificent collection of European single, double, triple, quadruple and quintuple thalers, or crowns, as generally known in America.

The splendid array which this distinguished collector has brought together is described in the following pages. First, those of the Holy Roman Empire; second, Empires; then Kingdoms, and so on through the Archbishops, Bishops, Princely Houses, Cities, etc., the arrangement of the catalogue by Adolph Hess, of the great Reimann Collection, being followed and to which reference is made under R., and the number therein where the coin may be found.

For many years Mr. Baldwin has sought the finest examples he could find of the coins he was interested in, and even though he had a specimen it was discarded if a finer one was procurable, hence the coins here offered are of a grade above those usually seen, especially in this country and even rarely abroad. Almost without exception, unless it be they are multiples of the thaler, the coins in this sale are the size of a dollar. All are silver, except, of course, the gold coins and medals at end of the sale. There are eight (8) plates of the rarest coins, instead of six (6) as advertised, no extra charge being made. These illustrations will show the intending purchaser just how the coins look, as they are made direct from the coins themselves. Defects or burnished surfaces, loops removed, etc., are carefully noted in my description, and I feel a confidence in declaring that any collector pur-

chasing at this sale will not suffer disappointment when he receives the lot.

I guarantee all the coins and medals genuine, and this holds good indefinitely; but on the cast foreign medals I withdraw from a guarantee, as it is almost impossible to say when they were made. That of Louis XIII I believe to be an original and of the time.

To aid intending purchasers, it occurred to me that it would be advantageous to them were the prices paid by Mr. Baldwin stated, and I have, therefore, given the cost in very many instances. These, being the prices actually paid at the time of purchase, should not deter the bidder from sending in a higher bid if he wants the coin; for in many instances I believe the value at this time to be greater, and especially so in some important examples which were bought years ago at auction in Europe. That values have increased, and such superior examples as are in this collection are more scarce in Europe to-day than ten years ago, I can testify, as I found it so in my three trips to Europe in the last fifteen months.

Bids will be carefully executed by me for the usual 10% commission on the amount actually purchased. The auctioneers will execute bids free of commission, but accept no responsibility. Purchases either through me or the auctioneers will be for cash. The auctioneers reserve the privilege of requiring a deposit at time of purchase, if in their judgment it is for the best interests of the seller.

Where a bidder makes an error in making an offer for a lot and it is bought under that bid for his account, the cataloguer and auctioneers will require him to pay the bill and not consider his error as justification for declining to pay for said lot. To obviate this, collectors are requested to carefully examine their bids before dispatching them. Sign your name and address to the bid sheet. To receive an unsigned bid sheet is not uncommon.

The coins, etc., to be sold each day will be on exhibition from

9 A. M. to 1 P. M. day of sale. No lot is exhibited during the progress of the sale except by request. The collector who has examined the coins during the exhibition hours and marked his catalogue with their value to him, will find ample time to bid when the lot is put up, even though some two hundred lots per hour are sold.

Sold so much each piece, unless where stated otherwise.

Plate catalogue, containing eight plates, printed price list after sale, price $2.50.

Printed price list after sale, price $1.00.

A few catalogues will be made up after sale, with price list bound in, price $1.50.

Very respectfully,

HENRY CHAPMAN,

Numismatist.
